

Whole House Music & Control Systems

At the touch of a button your home comes alive with music, lighting, video. Seamless and almost invisible controls from the best names in the business.

We can design a 'high tech' house that is very easy to control and live with every day.

WayBetterHD's systems guarantee a high level of quality and attention to detail, bringing together just the right components to match the environment in which they are installed which means the best possible listening experience.
